THINKIN DUBAI CLASS

ANATOMY & AESTHETIC TREATMENTS CLASS

Focus on Anatomy, simulator injections & ultrasonography

12-13 MAY 2023

**SOFITEL OBELISK / IMA
DUBAI HEALTHCARE CITY**

This
event was
awarded
8 CME
/ 8 CPD
credit

During this 2-day VIP Thinkin Class, you will discover innovative teaching formats focusing on the topics of HA, toxins, and threads no matter which is your level of knowledge. The purpose of the class is to help you improve your **anatomical skills & injection treatments** through video cadaver dissections and live treatments as well as unique **HANDS-ON trainings** with **ultrasonography and simulator injections**.

World-renowned physicians will guide you through small group workstations as you practice injection techniques and as you apply and test the use of ultrasounds to deliver safe and satisfying results for your patients.

With the **F.A.S.T. (Facial Aesthetic Simulator Training) Method**, the speakers walk you through the anatomy & injection techniques for toxins, fillers and threads. This hands-on training gets close to a real-life injection experience thanks to the use of an innovative 3D teaching tool, an injection Simulator, that models the anatomical layers and structures down to the detail.
