# THINKIN PARIS CLASS

ANATOMY & AESTHETIC TREATMENTS CLASS

Focus on Anatomy, Simulator Injections & Ultrasonography

**JANUARY 30-31, 2024**

**HYATT REGENCY ETOILE**

Presential and online

13.5 CME  
CREDITS  
BY UEMS

**think.in** THE SCHOOL OF  
MEDICAL AESTHETICS  
by Dr Benjamin Ascher

During this 2 days VIP masterclass, attendees will have the opportunity to experience innovative teaching formats focused on four key topics: HA, toxins, threads and ultrasonography injection. Whether you are a beginner or an intermediate, this class caters to your level of knowledge and interest.

On day 1, you will have the opportunity to choose between course A or course B for a personalised learning experience to improve your anatomical skills and increase safety and outcome quality through lecture, video and live demonstrations.

On day 2, you will improve your injection confident and technique with hands-on trainings on ultrasonography and the unique method, **F.A.S.T. (Facial Aesthetic Simulator Training)** simulator injections by world-renowned physicians. The Advance Facial Simulator model used within the **F.A.S.T.** method is an innovative 3D printed design models the anatomical layers and structures down to the detail, a close to real-life injection experience, applicable for all levels of knowledge.
