**think.in** THE SCHOOL OF  
MEDICAL AESTHETICS  
by Dr Benjamin Ascher

During this 1-day VIP Thinkin Tbilisi Class, you will discover innovative teaching formats focusing on the topics of threads and injectables no matter which is your level of knowledge. The purpose of the class is to help you improve your **practical skills** through innovative concepts as well as through a unique **HANDS-ON trainings** with **ultrasonography and simulator injections** for threads and fillers.

This hands-on training gets close to a real-life injection experience thanks to the use of an innovative 3D teaching tool, an injection Simulator, that models the anatomical layers and structures down to the detail.

World-renowned physicians will guide you through small group workstations as you practice thread and injection techniques and as you apply and test the use of ultrasounds to deliver safe and satisfying results for your patients.
