PROGRAM

SCHEDULE
PARIS TIME

June 29

The goal of the AI class is to understand fundamentals of machine learning and its use within our practice. We prepared a specific practical class of machine learning algorithms, which are commonly used in dermatology, plastic surgery and skin care, and of their applications in our daily practice ensuring that they are suitable and relevant tools in our fields. This class will also review the challenges, myths, and limitations of implementing AI in our medical practice and surgeries.
